Dear Helen,

No problem! Making Spider Open Sandwich is easy! You need two slices of bread, two slices of bacon, some cheese and two eggs.

First boil the eggs for ten minutes. Then peel and cut them into slices and put them in a bowl. Then grill the bacon slices in a pan for five minutes. Toast the bread slices lightly in a toaster. Then mix the cheese and the egg slices in a bowl with some salad dressing. Put the mixture on one slice of bread. Place two slices of smoked bacon on it and cover with the other slice of bread. Cut the sandwich into two small cubes and secure them with a toothpick before serving. Enjoy the sandwich with a cup of cola. It tastes yummy.

Love,

Josh
