Good Manners in Public Places

It is important to behave well everywhere, whether we are at school or at home! We should have good manners everywhere so that there will be no chaos.

Firstly, we should have good manners in the classroom. It is very dangerous to run. Therefore we should not run in the classroom. We should walk slowly instead. When the teacher comes and is teaching us, we should not talk during the lesson. We should behave nicely, otherwise we will disturb the teacher and our classmates.

Secondly, we should also have good manners in the hallway. We should not run in the hallway because we will trip over and knock somebody down. It is also very dangerous, so we should walk slowly instead. We should not throw rubbish on the floor and we should stay in line.

To sum up, we should have good manners everywhere, so that there will be peace and harmony in the society.
