What you should or should not do in public places?

It is important to behave ourselves in public places. You should respect one another, and be polite to one another. Don't yell or fight with one another. Then the society will be calm and peaceful.

Firstly, we should behave well in the airport. You should not arrive late for the flight, otherwise, you can't catch the flight. Don't wait impatiently to board the flight. Please arrive two hours early and speak politely to the staff.

Secondly, we should behave ourselves on the bus. You should not talk loudly on the phone or put your feet on the seat or else you will cast a disturbing scene. Please talk softly on the phone and leave the seat after the bus comes to a complete stop.

Now you know how everyone should behave well in public places.

I hope you will do it.
