**My Dream Job**

I want to be an astronaut when I grow up because I want to walk in space and discover new planets.

If I become an astronaut, I will ride a big rocket ship to the moon and walk on there.

I need to be brave so that I can overcome this dangerous job when I work in the space station. I also need to be strong so that I can carry the weight of the space suit. I need to be smart too so that I know how to function the rocket ship.

I think I am suitable for this job because I like exercising and I am clever. I am also pretty brave. I have to exercise a lot and study maths harder.
