My Dream Job

I want to be a vet when I grow up because I love animals. I also want to do surgery for sick animals. If I become a vet, I will cure sick animals.

Vets need to be careful so that they won't hurt the animals. They need to be hand-working so that they can keep learning while working. They also need to be calm so that they can help injured animals better. In addition, they need read books about curing animals. They also need to take care of the sick animals.

I think this job is suitable for me because I always study about animals. I have to study hard in order to become a vet in the future. I hope I can be a vet some days.
