My Dream job

I want to be a piano teacher when I grow up. It is because I like music and I think it is fun and exciting. If I become a piano teacher, I will teach my pupil to love music.

Piano teachers need to be good at music so that they can play different songs. Piano teachers need to play very well so that they can teach their pupils well. They also need to be patient so that they can teach the students patiently.

I think I am suitable for this job because I am patient. I love to play the piano all day when I am free. I am sure, I will be a very piano teacher some days.
