## My Dream Job

My dream occupation is being a doctor. It is because I want to cure the patients so that I can contribute to the society and a doctor can have stable income.

To be a doctor, I need to study hard because doctors need to be highly educated. If I become a doctor, I will help all patients.

To be a doctor, there are some necessary requirements.

First, doctors need to be calm. If the doctor is nervous, he will do the wrong things in the surgery. If the patient gets hurt, the doctor will be sued.

Next, doctors need to be considerate. If the doctor forgets an important step, the patients will be in danger.

Finally, doctors need to have a spirit of leadership because they play an important role in the hospital, they need to lead a team.

As a conclusion, doctors can earn a lot of money. However, they need to bear the responsibility if things go wrong. Nevertheless, I still want to be a doctor!
