Billy and his robot

It is Sally's birthday today. Billy wants to buy Sally a doll so he wants to go to the toy shop in Joyful Shopping Centre. The toy shop is on the first floor.

Billy goes to the toy shop. He can see some robots. A robot is one hundred and ten dollars. He buys one because he likes it so much. On his way home, he finds that he forgets Sally's gift. 'Oh no!' says Billy.

In the end, Billy goes to the bank to get some money. Then he goes to the toy shop again and buys a doll. Billy gives the gift to Sally. They are happy.
