A Unique Gift

Today is the twenty-fifth of July. Today's Sally's, Billy's sister's birthday. Billy wants to buy a birthday gift for her. He decides to get her a doll because she enjoys collecting a variety of dolls. Then, he sets off to Joyful Shopping Centre. Upon arrival, Billy goes to the toy store on the first floor. He sees many different toys. They are all amazing! He loves the robots in the store because they look so cool. 'How much is a robot?' he asks. 'It's one hundred and ten dollars,' the shopkeeper replies. Then, Billy buys one. On his way home, he suddenly realizes something. Oh no! He forgets to buy a doll for Sally. He has no money left and feels worried.

In the end, Billy has a great idea! He transforms the robot into a doll by giving it a beautiful dress and accessories. Sally is surprised and overjoyed. She gives Billy a hug and says, 'Thank you very much, bro.' Billy feels so proud of himself. What a unique gift! What a wonderful birthday!
