At the supermarket

Last week, May and Danny planned to have a party at home so they went to the supermarket to buy food. They wanted to buy five packets of chips, four cups of ice cream and three slices of pizza.

‘I like Calbee chips. They are the most popular chips. Calbee chips are the most expensive chips too,’ said Danny. Suddenly, he found that he forgot to bring his wallet. He was scared. Danny and May even broke a glass. The pieces were on the floor. They were nervous.

At last, Danny asked his mother to pay for what they wanted to buy. They bought everything they wanted. They were happy.
