Behave Well in Public Places

It is important to have good manners and avoid bad manners in public places.

Firstly, we should have good manners in the restaurant. We should talk to the waiters politely. We should wait for a table patiently. We should not eat nosily there. Besides, we shouldn't talk loudly, so that we won't disturb others.

Secondly, we should have good manners on the MTR. We should give our seats to the elderly. We should talk softly. We shouldn't be impolite there. Also, we shouldn't push our way into compartments. Otherwise, someone may get hurt.

To sum up, let's behave well in public places and be a good citizen!
