My Dream Job

My dream job is to be a pilot. If I become a pilot, I will explore everywhere and take my passengers to travel around the world. I think it is a very meaningful job because I can bring myself and everyone a pleasant and safe journey.

Being a pilot is always a challenging and demanding job. If I want to be a pilot, I need to learn and practice better technique and skills by playing my remote model planes. I will also strengthen my knowledge about planes. Especially, I will build up my language skills as strong as possible.

Pilots need to be professional and punctual so that they can offer their passengers a safe ride and arrive every destination on time. Pilots also need to be responsible and smart so that they can tackle problems or any unexpected occasions as wise and accurate as possible. Pilots need to be fit and healthy too. They need to exercise regularly so that they can stay fit and serve their passengers at the rest.

I hope my dream to become a pilot would come true in the future. My professional contribution the flying career would sustain forever.
