Dear Miss Lo,

We are writing because the Student Union would like to help Impact HK to raise money for the homeless people. We think our ideas will help solve some problems for the people there.

The homeless people cannot buy food and daily necessities because they don't have enough money. They also live on the streets because renting flats is not affordable for them. They have psychological problems because they cannot share their feelings with friends or family members.

We want to organize a fundraising program to perform a dance show with the homeless people to raise money. We would also like to form a stall to ask students or parents to donate some daily necessities such as shampoo and clothes for them.

We hope you will be able to help us organize the charity events.

Yours sincerely,

Lincoln Hui

Chairman of the Student Union
