When I grow up, I want to be a pilot because it is a challenging and meaningful job. If I become a pilot, I will fly a large plane to take passengers or goods to different countries around the world.

Pilots need to be smart so that they can determine the safest routes. They also need to be hard-working so that they can analyse flight plans and weather conditions before departing. They need to have good communication skills too. They must speak clearly to the air traffic control so that they can safeguard all crew and passengers during flights.

I am suitable for this job because I am intelligent and conscientious. I am an enthusiastic person too. I am going to read lots of aircraft books to explore more about magnificent planes.

I hope I can be a pilot when I grow up. Maybe you will travel on my plane one day!
