How to make a Zappy Zebra

Things you need:

- a pile of torn newspaper
- a lolly stick
- a shoe box with a lid
- a roll of sellotape
- a cereal box
- 5 toilet rolls
- a pair of scissors
- a paintbrush
- some black and white paint
- some water and a paint plate
- a piece of cardboard paper
- a pencil
- a bottle of glue

Step:

1. First use sellotape to stick the lid to the shoe box tightly. Use sellotape to attach a toilet roll to each corner of the shoe box.
2. Then turn the shoe box upside down. Use sellotape to stick a toilet roll on the middle of the right side of the shoe box's lid. Fix a cereal box on top of the toilet roll. Stick a lolly stick on the middle left side of the lid to make the zebra's tail.
3. After that use a pencil to draw two zebra's ears on a piece of cardboard paper and use a pair of scissors to cut them out nicely.
4. Next use a bottle of glue to stick the ears onto the left side of the cereal box.
5. Then use glue to stick a lot of newspaper which was torn into pieces earlier on the entire zebra. Wait for the zebra to dry.
6. Finally use a paintbrush and some black and white paint to paint stripes on the zebra. Use a pencil to draw a nose, a mouth and a pair of eyes on the zebra's face. You are done and enjoy playing with it!
