6S (8) LAM KAM LOK

A Magical Boy

They did not know what to do. Then the genie had an idea. ‘We can ask the wizard for help!’ he suggested. They started to go to the wizard’s house immediately. First they crossed a river which was as long a million trains and climbed a mountain which was like a hundred-storey building. At last, they got into wizard’s house.

When they got into the house, Eric asked, ‘Can you help me to become shorter, please?’ Sure! You need to find some grass and a leaf.’ replied the wizard. ‘No problem. I will get all the things within twenty minutes.’ Eric closed the door and went to the forest as quick as a flash. Soon after Eric gave everything to the wizard, the wizard made a magic drink for Eric. After Eric drank the magic drink, Eric became the size that he wanted. He was satisfied.

In the end, Eric suggested wizard to be his neighbor. After a while, the wizard packed all the things and followed Eric to his grandma's house. The wizard used magic to build a house and became Eric's family magical doctor. Eric learnt that he needed to be happy with what he had. Eric lived happily forever.
