Good Behaviour in Different Places

It is important to behave well in different places. Read this article to find out how to be good in different places.

First, we should have good manners in classrooms. We should arrive early because we cannot miss any lessons. We should also speak politely. If we speak impolitely, the teacher will be angry. We should not sleep because we cannot hear the teacher. We should not dress untidily either because we will scare the other people if we do.

We should be good on the train. We should offer our seats. It is our responsibility to offer our seats to the people in need. We should also talk on the phones softly. We should not make other people angry. We should not push other passengers because we may hurt them. We should not eat or drink either. We cannot make the train dirty.

To sum up, you have to be good in these places. Let us be good citizens.
