Good Manners in Public Places

It is important to behave well in public places. Let's learn about what we should and shouldn't do in different places.

First, we should have good manners in the museum. We shouldn't take photos with flash light in the museum because it may influence other visitors in the exhibition hall. We shouldn't write on the walls too because it may damage the heritage. We should line up in the museum. The situation will be in a mess if we do not line up. We should speak quietly because we should not affect others.

In the park, we should also behave well. We should follow our parents. If you don't do so, you will get lost easily. We should play nicely with other children because it is important to respect each other and arguing with one another is not desirable. We should throw rubbish in the rubbish bins because we shouldn't pollute the environment. We shouldn't feed the birds because they will die easily when they cannot find food by themselves.

To sum up, we must have good manners in different places. Let's all work hard to make our society to be the best place to live in.
