My Dream Job

I have a lot of talents and hobbies therefore I am suitable for a lot of different jobs. However, I want to be an entrepreneur.

I want to be an entrepreneur because I want to start an enterprise and bring wealth and honour to my family. If I become an entrepreneur, I will invite some of my smartest friends to join my enterprise to help me make more money, and I will use the money to make a better world for every living creature on Earth.

But being an entrepreneur isn't just about living a comfortable life, I need to make more money for my enterprise. I need to be smart so that I won't be fooled easily. I need to be friendly so that my workers will like me and work even harder because they are in a relaxed mood so they won't be very nervous like a cat on hot bricks. I need to be sociable so that I can easily communicate with my clients.

I am suitable for this job because I am smart and valiant. I need to overview proposals and be good at communicating with others. I will be very strict if there is

a need to deal with workers. Even though it is a long way to have an attempt to build up an enterprise, I can work harder to get more knowledge and perfect my plan to build up an enterprise when the time is right. I

also try to make friend with those who are smart or rich so that they can help me.
