

Hennessy Road Government Primary School (Causeway Bay)
2024-2025 1st Term Writing (2)

6S Hui Chi Yui, Phyllis

Dear Principal,

We are writing because the Student Union would like to help Save the Children Hong Kong to raise money for children in need around the world. We think our will help solve some problems for children there.

As mentioned, the children are going through rough patches lately. First, some lose their living places and could only roam around streets because some countries, especially in the Middle East, fight against one another. The battles affect the innocent citizens as well as the kids. Secondly, a lot of children are not educated enough. In some remote villages, people do not have enough money to afford various teaching supplies such as stationery and books. What is even worse, some could not even build a school. Last, the young ones often starve and suffer from dehydration due to lack of water and food in some areas that are in poverty nowadays.

To lend a helping hand for those children, we want to support architects to rebuild damaged buildings by doing some charity work like participating in a charity run to raise money and support them. We would also like to let kids live in a higher quality live by collecting fresh food, articles for daily use or idle stationery and send these to their countries.

We hope you will be able to help us organize the charity events.

Yours sincerely,

Phyllis Hui

Chairman of the Student Union
