My Dream Job

I want to be a teacher when I grow up because children are cute and I like them. If I become a teacher, I will teach students a lot of subjects like Math, Art, Music, Sports and English.

Teachers need to be caring so that they can listen to and understand children's problems. Teachers need to be patient so that they can take good care of children. Teachers also need to be creative so that they can think of different games to play with children.

All in all, I think this job is very suitable for me because I am caring, patient and creative. I have to be hardworking and get good results in exams from now on.
