2024-2025 1st Term Writing (2)

6H (10) Kam Lok Sun

5th December, 2024

Dear Principal Lo,

We are writing because the Student Union would like to help Hong Kong Red Cross to raise money for the poor people in Sichuan in China. We think our ideas will help solve some problems for the underprivileged there.

The people in Sichuan suffer from natural disasters such as earthquakes and droughts. People there don't have houses to live because they were destroyed during earthquakes and the victims do not have enough money to rebuild their houses. Besides, people there are sick because the hygiene is poor and there are a lot of diseases but there are very few doctors and very little medicine. What is more, there is insufficient food supply because droughts damage people's farmland. The soil is too dry and plants cannot be successfully grown.

We want to organize two events to raise money for Hong Kong Red Cross which can help the underprivileged people in Sichuan. First, we will perform a drama, which is about how the natural disasters affect people in Sichuan, at school for all the teachers, students and parents to join. We will collect entrance fees from each audience. We will also encourage the

audience to donate money.

Second, we would also like to organize a 'No Snacks Month'. We will ask people to sponsor us for not buying or eating snacks for a month. By doing so, we believe we not only can raise money for Hong Kong Red Cross, but also help all participants become healthier.

We believe the above events can definitely arouse people's awareness of the needs of the poor people in Sichuan and raise additional fund for Hong Kong Red Cross to help the people in need. We hope you will be able to help us organize the charity events.

Yours sincerely,

Sunny Kam

Chairman of the Student Union
