Eric's Magical Adventure

They did not know what to do. Then the genie had an idea. "We can go to the wizard's house and ask the wizard," he suggested. First, they swam across the river and climbed up a tall mountain. Then they knocked on the wizard's door. Next, the wizard opened the door, and they entered the house.

When they stepped inside, Eric asked the wizard, "Can you help me become shorter?" "Sure! I'll make a potion to shrink you," the wizard replied. "Great!" Eric said. After a while, the wizard made the potion Eric had requested. He gave it to Eric and said, "Drink this." "Thank you for making the potion," Eric said. "No problem!" the wizard replied. Afterward, Eric and the genie left the wizard's house and went into the forest. They stopped there for Eric to drink the potion. After Eric drank the potion, he became shorter as he wanted. He felt glad and comfortable.

In the end, Eric and the genie went back to Grandma's house. When they arrived at her house, Eric said goodbye to the genie and went inside Grandma's house. What a wonderful and magical adventure !
