### **My Role Model**

I admire Aunt May most because she is diligent and optimistic. She is 31 years old. Her favourite saying is, 'Life is like a box of chocolate. You never know what you're going to get.'

May has been an athlete for 20 years. She showed her talents in sports and could run as fast as lightning when she was young. May joined the school's sports team and practised hard every day. She broke a record for 100 meters dash and received a gold medal in the Inter-School Athletics Competition in 2006. Later, she was selected in the Hong Kong team.

May is an optimistic person. Once she got hurt and lost an important game. However, she didn't give up. She learnt from the failure and practised more rigorously after that.

Also, May is helpful and nice. She always helps me with my homework and encourages me to try new things.

From Aunt May, I have learnt that I should work hard and keep exploring. Don't fear new challenges.
