Sally's Birthday Gift

Today is Sally's birthday. Billy wants to buy a birthday gift for his sister. He wants to buy a doll because Sally loves dolls. He goes to Joyful Shopping Centre.

First, he goes to a toy shop on the first floor. There are some dolls and some robots in the shop. 'Wow! The robots are cool! I love them! How much is the robot?' asks Billy. 'It's one hundred and ten dollars,' the shopkeeper says. 'I'll but it!' says Billy. When Billy walks back home, he thinks he forgets to buy the doll for Sally. 'Oh no! What should I do?' Billy says.

In the end, Billy goes back to the shop and changes the robot to a doll. However, he can't get back the money. For this reason, he feels very regretful. He learns that he should stop and think before buying anything.
