May and Danny's Adventure

Last Friday, May and Danny wanted to prepare for picnic, so they went to the supermarket and did some grocery shopping. They planned to buy ten packets of seaweed, ten cartons of fresh milk, a box of chocolate and a box of ice-cream cones.

Next, they walked down the aisle. They saw many snacks. They picked seaweed. It was the most expensive item. They also picked chocolate. It was more delicious than fresh milk.

Then, at the cashier, Danny found that he left his wallet at home. He was worried. 'Let's steal the food and run away,' May whispered. 'Sure.....' May replied. When they were running away, they broke some wine glasses. 'Oh no.....' they said.

In the end, the supermarket staff came to see what happened. When the supermarket staff came, the children ran away and he caught them. The staff called the police. The police came and caught them to jail. They felt so sad.
