Eric got into trouble!

Once upon a time, there was a little boy named Eric. One day, Eric found a bottle. He accidentally dropped the bottle and it broke. A genie appeared and granted Eric one wish. Eric wished to grow tall. However, he became too tall to go into his house.

Eric was sad. He could neither eat nor sleep, and he was very worried. He asked the genie to help him because he wanted to return to normal. The genie suggested that Eric find a wizard.

They climbed up a mountain. At last, they arrived at a magical house and saw the wizard. The wizard used his magic power to help Eric return to his normal size. Eric felt very grateful to the wizard and thanked him.

In the end, Eric returned to normal and could finally enter his house through the door. He was as happy as a lark. Eric learned that he should think carefully before making a choice.
