My Favourite Role Model

There are lots of people to learn from around the world. The person who inspires me the most is Jisoo. She is a member of the girl group 'Blackpink'. She is 31 years old now. She isn't my friend or relative, instead, she is my favourite Korean idol singer. She's as famous as Albert Einstein for her excellent singing and dancing skills, as well as her beautiful and charming appearance.

Jisoo has been a singer since 2016. She has trained for six years and was selected as a member of 'Blackpink' in 2016. Her job involves singing practice, dancing practice and acting. She excels at singing and dancing and her acting skills are also superb.

Jisoo is as hard-working as a bee. She won't play games in her free time. She will practise hard on singing, dancing and acting. She has won Pop Golden in 2026, Seoul International Drama Awards in 2022 and Community k 'tigers' choice awards in 2022. All these awards have demonstrated Jisoo's excellence in acting, singing and dancing aspects. I think Jisoo is as cheerful as a lark because she always wears a big and bright smile on her face. She is as considerate as a mother too because she always takes care of her members.

My favourite role model is Jisoo because when she encounters difficulties while dancing, singing or acting, she won't give up, but actively seeks for help and practises timelessly. From Jisoo, I have learnt that we should never give up when we encounter difficulties in our studies. My favourite role model is Jisoo, how about you?
