### The Best Basketball Player

Stephen Curry is one of the best basketball players in the world. He is an American professional basketball player for the Golden State Warriors. He is famous as arguably the greatest basketball shooter in NBA history. He even single-handedly transformed basketball from a game of physical to a game of precision and limitless range!

Stephen is not just a professional basketball player, he also has been an entrepreneur and the CEO of Thinky Ink for seventeen years! He is extremely good at basketball. He also won many awards including 4 NBA championships in 2015, 2017, 2018 and 2022, 2 NBA MVP in 2015 and 2016 and the 2022 NBA Finals MVP. One of the special things he did was making the three-point shot into a primary weapon in the late 2000s for the first time.

He is also humble, joyful and has a revolutionary spirit in basketball. First, despite his fame, he is known for being incredibly grounded and approachable. He is also famous for bringing joyful and lighthearted energy to every game. In addition, he literally changed the way of playing basketball with his long-range shooting.

Curry isn't the tallest or strongest basketball player but he is determined to be one of the best shooters in basketball history. I learnt that I don't have to be very good at everything, I just need to find my

unique strength to equip myself to be invincible, that's why I want to be a basketball player like Curry.
